The Desktop Telephone - **Reinvented**

Communication continues to evolve each day, and to keep up, so must your desktop telephone.

NEC brings you the obvious next step in desktop phone development. The new UT880 desktop telephone re-invents the office phone by integrating the traditional desktop telephone and tablet into one innovative, feature-packed device. The UT880—revolutionizes your desktop experience.

Make Upgrading Obsolete

Simple software updates keeps your phone current

Empowering the
Smart Enterprise

Many businesses are afraid that if they upgrade their phones today, something better will come out tomorrow.

With the UT880, simple software updates are all that is required to keep your desktop phone current. No need to purchase a new phone; protecting your investment.

With NEC developed UC applications, UT880 desktop telephone users get the power and capabilities of their favorite NEC phones and technology.

The UT880's interface is designed to improve the overall user experience, while remaining intuitive—with no extensive training needed. Global icons indicate status at-a-glance including notification of new voice or instant messages, missed calls, the telephone user's current presence status, and the device's current data protection mode.

Discover **Limitless Possibilities**

Technology is evolving at a faster pace than ever before.

To keep up, desktop telephones need to evolve to meet the ever-changing communication demands of today's workforce.

The UT880 provides you with easy access to your NEC Unified Communications (UC) desktop/mobile client. Get UC functionality—corporate directories, presence, instant messaging, unified messaging, and call control—available at your fingertips.

The UT880 offers you

- > Full seven inch color display with multi-touch capabilities
- > USB port
- > Multiline SIP client that emulates any NEC telephone
- > Open interface for application development
- > NEC platform voice functionality and hands-free, wide-band speakerphone
- > Integrated Bluetooth capability
- > Built-in camera for pictures and video applications

With the UT880, your workforce will be able to take it to the next level with a flexible and extensible device that conforms to multiple working styles and helps improve efficiency and productivity.

User Experience – Revolutionized

Whether utilizing the emulation of an IP telephone or your UC client, the UT880 gives you a consistent user interface across devices, improving efficiency and revolutionizing the user's experience.
